INTRODUCTION

The Association of Teacher Educators (ATE) was founded in 1920 and is the only national, individual membership organization devoted solely to the improvement of teacher education for both school and campus-based teacher educators. ATE members represent over 650 colleges and universities, 500 major school systems and the Association represents its members’ interests before governmental agencies and educational organizations. ATE’s representational form of governance offers members an unusually high level of opportunity for national leadership.

VISION

ATE promotes advocacy, equity, leadership, and professionalism for teacher educators in all settings and supports quality education for all learners at all levels.

MISSION

ATE, as an individual membership organization, promotes quality teacher education through both exemplary clinical practice and research.
