

**Position Overview:**

Fazko Education is seeking high performing Subject Matter Experts (SME) to support a client program in the area of Teacher Training. Fazko SMEs will have significant experience teaching and developing courses in at least one of the areas listed below:

- Educational Psychology
- Child and Adolescent Development
- Classroom Management and Discipline
- Assessment in Education
- Curriculum Planning and Management

Fazko SMEs are highly motivated individuals whose primary responsibilities are to design, develop and maintain instructional content for web-based and/or instructor-led courses and related training products. Fazko's ideal candidate is passionate about instructional design and teacher training in developing countries.

This is a part time position on-site at Fazko's Headquarters located in Owings Mills, MD. Telework options will be considered but are not guaranteed. This position may require international travel on short notice.

**Responsibilities:**

The ideal candidate will provide subject matter expertise in the development and maintenance of the Teacher Training Program curriculum. This includes working with the client program staff, management, technical staff in the design, conversion and development of training products.

- Serve as a SME in response to student and customer inquiries with respect to Teacher Training
- Provide SME support for Training Needs Analysis (TNA) and for Beta testing of new courses and products
- Provide assistance to the Program Coordinator in all phases of the ADDIE process, to include course development, review and maintenance
- Review training material/deliverables and provide recommendations on the accuracy and relevancy of content of instructor-led, eLearning, webinars and performance support tools (i.e. storyboards, instructor guides, participant guides, design plans and other related material)

**Minimum Requirements:**

- Master's degree in the field of education or instructional design from an accredited university
- 5+ years of experience teaching and/or developing courses in the subject areas of:
  - Assessment in Education
  - Educational Psychology
  - Child and Adolescent Development
  - Curriculum Planning and Management

**Preferred Qualifications:**

- Experience with eLearning software (Articulate Storyline, Captivate) highly desired
- Experience working with international education systems
- Experience working as a SME
- Proficiency in Arabic
